Our traditional qualities of adaptability, flexibility and warm welcoming still our main DNA, but the country has also become innovative and internationally recognized. So many reasons to invest in Portugal: Talent, Innovation & Technology, Global market access, Top infrastructure, social stability, a perfect climate and unique quality of life.

Legal Forms of Business Entities

Legal form	Feature	Remarks
Branch of a foreign company (Sucursal)	An extension of a non-PT company and as such has no legal personality in Portugal, but is part of the legal entity of the foreign company. It is basically a place of business, which is considered as a local extension to the head office. All responsibilities for any liabilities in Portugal belong with the foreign company.	Suitable for foreign companies looking for a presence in Portugal to initiate business or maintain contacts with business partners, especially in cases of uncertain success. Likely to be classed as a permanent establishment for tax purposes - Non-resident taxation.

The incorporation of companies is mostly ruled by the Commercial Companies' Code

There are several body corporate types under Portuguese law, but the following two types of company are the most common:

Private Limited Liability Company by Quotas (Sociedade por Quotas, limitada - LDA. or Sociedade Unipessoal por Quotas, limitada - LDA.)	Requires at least two partners (or in certain conditions, just one) either an individual or a company. Generally, decisions are taken and written in General Meetings of Quotaholders. It should have at least one director (gerente). The corporate entity is responsible for any company's liability, i.e., not the individual. The capital is freely established by the partners in the statutory contract (deed of incorporation), which is represented by "quotas", each one with a minimum value of EUR 1.	The most popular legal form for body corporates, with high flexibility and relatively few obligations.

	<p>There are exemption, or rate reduction, for the employer in several situations.</p>

Taxation

Companies in Portugal are usually taxed on two levels: on the first level, corporations are subject to Corporate Income Tax (Imposto sobre o Rendimento das Pessoas Colectivas - IRC), whereas partnerships are subject to Personal Income Tax (Imposto sobre o Rendimento das Pessoas Singulares - IRS). Both taxes are levied by the government. On the second level, taxable earnings are subject to the additional tax (Derrama).

Tax	Feature
International double taxation	Portugal employs two methods to avoid double taxation of foreign-source income, i.e. the exemption and ordinary tax credit methods. Portugal has almost 80 conventions for the avoidance of international double taxation. Portugal also signed the multilateral convention to implement tax treaty related measures to prevent base erosion and profit shifting.
Corporate Income Tax -CIT (Imposto sobre o Rendimento das Pessoas Colectivas - IRC)	A flat standard CIT rate is applied on the global amount of taxable income realised by companies resident for tax purposes in mainland Portugal: 20% on 2025, 19% on 2026, 18% on 2027 and 17% on 2028. A special reduced rate of 15% (16% after 2025) applies to the first EUR 50.000 of taxable profits of small and medium-sized enterprises and Small Mid Cap. Reduced rates are also applicable to companies with head office or place of effective management in the Autonomous Region of Azores or Madeira. SMEs and Small Mid-Cap companies, including start-ups, carrying out their activity and having their effective management in inland territories of Portugal mainland can benefit from a rate of 12.5%. Once profits are distributed to the shareholders, personal income tax on the dividends is applicable. Portuguese resident companies and local permanent establishments of foreign entities are taxable on their taxable income, determined in accordance with accounting standards and subject to the Portuguese CIT Code provisions. Expenses related to the business activity are generally deductible for CIT purpose, but there are some non-deductible items.
Additional Tax (Derrama)	Between 0% to 1,5% on taxable earnings of the body corporate, levied by a municipality - municipal surtax. An additional tax rate - state surtax - is applicable at following conditions: 3% on the taxable earnings between EUR 1.5 million and EUR 7.5 million; 5% to earnings between EUR 7.5 million and EUR 35 million; or 9% to earnings over EUR 35 million.
Participation exemption	Dividends received and capital gains realized by a resident company, from a domestic or foreign shareholding, are exempt, provided that some conditions are met, such as: the shares are held for a minimum continuous period of 12 months; the shareholder has held, directly or indirectly, at least 10% of the capital or voting rights of the entity that is disposed of. The entity from which shares are transferred is not resident in a black-listed jurisdiction.
Autonomous surcharge (Tributação Autónoma)	For anti-abuse purposes, certain expenses can be taxable with tax rates between 2,5% to 35% and, for non-documented expenses, the tax rate is 50% in general cases.
Carry forward tax losses	Tax losses assessed in tax years starting on or after 01.01.2023 can be deducted against taxable profit generated in future taxable years for an unlimited time period. This rule also applies to tax losses assessed in tax years prior to 01.01.2023, which carry forward period is still running as of that date. Since 01.01.2023, is capped at 65% of the taxable income (previously 70%). The carryback of losses is not permitted. Since 01.01.2017, the FIFO criteria for using tax losses was repealed.

Group taxation (Regime Especial de Tributacoes de Empresas – RETGS)	Resident companies may elect to be taxed under the special regime for groups of companies. Each entity must individually assess their taxable result, and so, the Portuguese tax group does not work as a pure consolidation or fiscal unity system. Among other conditions, application of this regime requires the parent to hold a direct or indirect interest of at least 75% of the subsidiaries’ capital and more than 50% of their voting rights.	
Transfer Pricing	<p>The Portuguese transfer pricing regime follows closely the OECD guidelines, whereby related-party transactions are valued on an arm’s length basis and are subject to certain documentation requirements.</p> <p>The legislation that applies from 01.01.2022 explicitly provides that the documentation obligation is considered fulfilled only when the documentation file submitted contains all relevant information relating to the controlled transactions in which the taxable person has been involved. The standard model is now composed of a master file and a local file. The master file must contain information relating to the Group. Taxpayers are required to report transfer pricing information in Annex H of the Company Simplified Information/Annual Statement.</p> <p>Based on the European Union Country-by-country Reporting Directive, there are reporting obligations in Portugal that apply to financial years starting on or after 22.06.2024. For taxpayers with a calendar financial year, the reporting obligation will apply for the first time to financial year 2025 and the report must be published until the end of the calendar year 2026. It applies to taxpayers belonging to an economic group with annual consolidated revenue in the preceding fiscal year of at least EUR 750 million.</p> <p>Portugal transposed into national legislation Council Directive (EU) 2022/2523 of 15 December 2022 on ensuring a global minimum level of taxation for multinational enterprise groups and large-scale domestic groups (Pillar Two Directive); the Global Minimum Tax Regime.</p>	
Limitation on the deductibility of financing expenses	Net financial costs are deductible only up to the greater of these thresholds: EUR 1 million or 30% of EBITDA as adjusted for tax purposes. No distinction is made between bank and intra-group financing, domestic or foreign financing (EU or non-EU).	This is an interest barrier rule, instead of a thin capitalization rule. Financing expenses considered as excessive (not deductible) in a certain fiscal year may be deductible in the following five fiscal years, provided that, together with the net financing expenses of that year
Personal Income Tax - PIT (Imposto sobre o Rendimento das Pessoas Singulares – IRS)	<p>There are several categories of income like employment income, business and professional income, investment income, real estate income, increases in net worth and pensions.</p> <p>The rate starts at 12,5% for an annual income exceeding the tax-free allowance of EUR 8.342. It rises progressively to a maximum personal income tax rate of 48%, which is applicable to earnings of EUR 86.634 or more.</p>	<p>Tax advantages are available for married couples, non-marital union and children.</p> <p>The Youth PIT tax regime is applicable to income from employment and self-employed work earned by taxpayers (not dependents) who are up to 35 years old, and for 10 years.</p>
Non-habitual Resident regime (Residentes No-Habituais)	The Non-Habitual Resident regime was revoked. Despite its repeal, the regime continues to apply to individuals who are already benefiting from this status. It offers attractive tax benefits, such as a reduced 20% income tax rate for qualified professionals in strategic areas for the national economy, for 10 years. The aim is to attract foreigners to Portugal.	
Tax Incentives for Scientific Research and Innovation (IFICI)	The tax incentive scheme for scientific research and innovation was created following the repeal of the non-habitual resident scheme. This benefit aims to boost the growth of Portuguese companies and attract talent to the national economy. It offers attractive tax benefits, such as a reduced 20% income tax rate for 10 years.	
Personal Income Tax in case of partnerships	As partnerships are not separate legal entities but associations of partners, the partners themselves generally are subject to the personal income tax, with the individual tax rate applicable to each shareholder. There are rules in place to achieve a tax burden neutrality between partnerships and corporations.	

Value Added Tax (VAT) (Imposto sobre o Valor Acrescentado – IVA)	<p>For mainland, the standard VAT rate is 23% and there are also a rate of 13% and 6%. Lower rates are applicable in Madeira and Azores.</p> <p>Some services, including banking, health-care, and non-profit work, are VAT-exempt.</p> <p>For certain services rendered by a foreign entrepreneur, the reverse-charge-system has to be applied.</p>	<p>Each entrepreneur can apply for a VAT-identification-number, which is particularly necessary for intra-EU supplies and services.</p> <p>Import turnover tax has to be paid for goods imported from non-EU states.</p>
Real Estate Transfer Tax (Imposto Municipal sobre as Transmissões Onerosas de Imóveis – IMT)	<p>When domestic real estate located in the Portuguese territory changes owner, a one-time tax over the purchase price has to be paid, usually by the buyer.</p> <p>The rate varies from 5% on the transfer of rural properties, a maximum rate of 7,5% on the transfer of residential properties, 6,5% on the transfer on urban properties and to 10% if the purchaser is located in a listed tax haven.</p> <p>Advantageous rules apply to urban property or autonomous fraction of urban property exclusively intended to permanent place of residence.</p>	
Real Estate Tax (Imposto Municipal sobre Imóveis – IML)	<p>Every property owner in Portugal is annually liable to real estate tax. The tax rate depends on the category of the real estate, the assessed value of the property and the municipal collection rate.</p>	
Stamp duty (Imposto do Selo)	<p>Applicable on several types of agreements, documents and deeds foreseen in the General Stamp Tax Table, which occur in Portugal and are not subject or exempt from VAT. Subject to exemptions.</p>	
Non-resident Taxation	<p>A non-resident company which is trading through a permanent establishment is liable to corporation tax on income connected to the permanent establishment in Portugal, and on capital gains arising from assets connected with the activities of that permanent establishment.</p> <p>Non-resident individuals and companies in Portugal receiving income generated in Portugal, are subject to Portuguese taxation, limited to their Portuguese-sourced income. Double taxation of this income is avoided by double taxation agreements between Portugal and other countries.</p> <p>In case of a non-resident company, the tax treatment depends on each kind of income.</p>	
Tax benefits (Benefícios Fiscais) Exemptions	<p>Portuguese tax law allows tax benefits or tax exemptions in several issues, namely in the following:</p> <p>Special tax credit for qualified investments (e.g. Tax Regime for Investment Support “RFAI”); Tax incentive to wage increase; Incentive to the capitalization of companies “ICE” (regime fiscal de incentivo à capitalização das empresas).</p> <p>Exemption for capital gains reinvestment.</p>	<p>Part of these benefits are determined or renewed by the government in an annual basis.</p> <p>Extraordinary measures had been adopted last years to support companies and the social sector, to combat rising energy prices and to mitigate the effects of inflation: extended in agriculture.</p> <p>New exemptions from the Real Estate Property Tax (IMT) and Stamp Duty (IS) for the purchase of primary residences by young people up to 35 years old.</p>
